

## HELICOPTER LS30H-AC PORTABLE DRILLING RIG (REF#1904N)

- ⦿ **LS30H-AC** drilling rig is designed and manufactured according to the principle "advanced performance, reliable operation, convenient mobilization, economic operation and meeting HSE requirements". The performance and quality has reached or are beyond the advanced level of international similar drilling rigs.
- ⦿ The rig is designed with advanced technology with reliable equipment. Some components are imported.
- ⦿ The performance of drilling rig satisfies the drilling requirements to the maximum limit.
- ⦿ The reasonable layout of the rig meets the requirements for helicopter hoisting, with assembly by an on-site crane.

### **TECHNICAL SPECIFICATIONS**

- ⦿ Drilling Depth: 4" Drill Pipe 4500 m
- ⦿ Maximum Hook Load: 1700KN (382,000 lbs.)
- ⦿ Height Mast: 38m Free Standing – Non-guyed
- ⦿ Height Monkey Board: 23m to 26m
- ⦿ Height Drill Floor: 6m
- ⦿ Opening Diameter – Rotary Table: 444.5mm (17.5")
- ⦿ Gears – Rotary Table: 1 Forward 1 Reverse
- ⦿ Diameter – Drilling Wireline: 29mm
- ⦿ Drawworks:
  - ⦿ Rated Horse Power: 750HP
  - ⦿ Maximum Fastline Pull: 210KN
- ⦿ Gears – Drawworks: 1 Forward 1 Reverse
- ⦿ Traveling System: 5 x 6
